REC

- 6 JUL 1962

Ans'd.....

Dear Sir,

m.s. "MITRA"

We have received the following letter from
Messrs. Shell Tankers N.V. dated 3rd July, 1962:

"The above named vessel was due for Special Survey
June 1962, but in view of the plans to withdraw
the ship from service in July/August, 1962, the
survey has not been commenced."

We have now been approached by our London Associates
with a query whether there is a possibility to extend
the trading of the ship until 31st December, 1962,
without incurring docking/Special Survey costs,
thereby assuming the ship to be sold at the end of
the extension period.

"MITRA" is operating, in the white oil trade, between
Curacao and Europe and is at present in the Curacao
area.

"We should appreciate your comments on the possibility
of granting us an extension as outline above. As this
matter is of some urgency, we should be grateful for
a reply at your earliest convenience."

We shall be pleased to receive your comments for
transmission to Owners and Netherlands Authorities.

Yours faithfully,

The Secretary,
LONDON.
