

REGISTER OF SHIPPING OF THE USSR

REPORT № 1450/N

Port Novorossiisk „ 14 „ October 19 66Ship's Name PANAGIA SIRIOTISSA

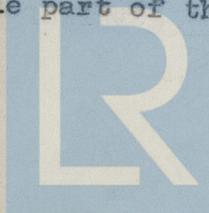

Type steam ship Date of build 1935 Aalborg.
 Owner APAM Co. NAVIERA C.A. Gross Tonnage 1862
 Port of Registry Piraeus Power of Main Engine 1350
 Flag Greece Class +100A1 with freeboard strengthened for navigation in ice.

We, the undersigned Surveyor of the Register of Shipping of the USSR G.T. Zoubarev and V.S. Shapourko at the Master's request have surveyed the vessel after

fire which took place on October 10, 1966 while the vessel was waiting for loading in the roads of the port of Novorossiisk.

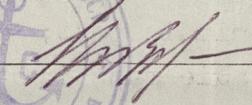

The Survey has ascertained that as a result of fire flared up in the area of the boiler room and then spread to the premises in the middle part of the vessel situated above the boiler-engine compartment, the following parts of the vessel were damaged:

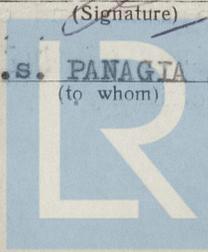

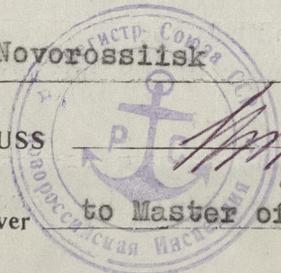

1. Insulation, interior trim and equipment of saloon, galley, buffet room, all portside premises and starboard fore ones captain's cabin, provision stores and refrigerator chambers;
2. Bulkhead insulation of boiler room, that of boilers, steam pipe-line and flues;
3. Decks and bulkheads in the boiler-room area;
4. Boilers, boiler steam pipe-line and flues;
5. Steam pipe-line and pipage in the areas of boiler-room and in the areas of boiler-room and in the middle part;
6. Electrical equipment and cable runs in the area of boiler-engine compartment and premises of the middle part of the vessel.
7. Boiler-room machinery.
