6th September, 1950.

Dear Sir,

s.s. "LANARKBROOK"

(John Lewis & Sons. Yard No.223, and
Engine No.294)

The above vessel was assigned classification in June last, and it is understood she is fitted with a Crompton Parkinson $7\frac{1}{2}$ KW. generator, for which no certificate can be traced.

In reply to enquiry, the Aberdeen Surveyors state that it is difficult to decipher the number on this generator, and that it may be either 121A 1917 or F21A 1917.

In the circumstances, I shall be glad if you will enquire of Messrs. Crompton Parkinson & Co. Chelmsford, and endeavour to identify this generator. If you are able to do so, I shall be obliged if you will obtain and forward to this Office a copy of the maker's test certificate, duly endorsed and initialled by you.

Yours faithfully,

Assistant Clerk
to the
Classification Committee.

H.Y. Bell, Esq.,
IPSWICH.
