

M.S. "REMEDIOS"

For reclassification of the Machinery.

Completion of CS by examination of following items:- *(by the
officer)*

Ballast, cylinder circulating, piston cooling, fuel
valve cooling pumps,

F.W. cooler,

Pumping arrangements,

Evaporator,

Oil fuel tanks,

Steering machinery,

Compressors, and main and auxiliary air receivers
and coolers,

Starboard forward auxiliary engine,

Fire extinguishing arrangements,

Electrical installation,

Steam pipes over 3" bore (to test and examine).

Also Donkey Boiler Survey.

Note: At the last examination in drydock in May, 1957,
both propellers were found to be heavily eroded
and were recommended to be renewed at the next
drydocking.
