Ramsden Square,

ANSO..... CL 31/10 Barrow-in-Furness, 10th November, 1947.

Dear Sir,

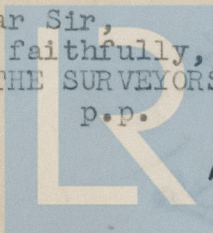

m.v. "ACCRA" and "APAPA"

With reference to your letter S. of the 3rd November, regarding the recent damage to the casing of port waste-heat boiler of the "ACCRA", we now enclose copy of a letter received from the Chief Superintendent Engineer.

We would add that an Engineer standing on the manoeuvring platform of the main engine cannot see the position of the by-pass valves in the exhaust line.

We are, Dear Sir,  
Yours faithfully,  
THE SURVEYORS  
p.p.

The Secretary,  
LONDON.
