RNC

Dear Sirs,

Dredger "W.D.ATLAS".

I am informed by the Whyalla Surveyors that this bucket dredger was to proceed to your port on 11th instant.

The Surveyors further stated the conditions under which the dredger would proceed, also that the Main Boiler Survey had been started by them.

So far as this latter survey is concerned, we conclude that it will be completed without fail before the dredger leaves your port, seeing that the inspection fell due in September 1965. Should this conclusion not be correct, however, you should inform this office immediately as it will be necessary for any further deferment to be submitted to the Committee for consideration.

It is further concluded that the necessary steering gear arrangements will be effected before the ship leaves Sydney.

Yours faithfully,

Classification Manager.

The Surveyors,
SYDNEY
