Dear Sirs,

Bucket Dredger "W.D.ATLAS"

When this vessel came under survey at Lisbon in April for damage, alterations to the rudder were carried at the same time at the request of your Representative. The area of the rudder blade was increased to make the vessel more responsive to the helm.

The rudder plan, showing the increased blade area has now been examined in this Office and can be approved provided the vessel's speed does not exceed 6 knots.

Yours faithfully,

pro Clerk to the  
Classification Committee.
