

WOKINGHAM COPY.

22nd September, 1942.

Dear Sirs,

I am in receipt of your memorandum of the 16th instant relative to the refrigerating machinery of the Steamer "CALUMET" and, having placed the case before the Committee at their meeting today, I have to say that in the circumstances mentioned by you they have agreed to the record of "Lloyd's RMC" etc. being retained in the Register Book for the present, subject to the complete survey of the refrigerating machinery and appliances being carried out before a refrigerated cargo is again loaded.

I shall be glad if you will inform the Owners' representatives accordingly.

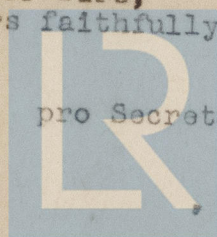

I am, Dear Sirs,

Yours faithfully,

pro Secretary.

The Surveyors,

HULL.
