

Lloyd's Register of Shipping,

201, Tower Building,

Liverpool, 30.6.34

Reference

Dear Sir,

I beg to inform you that the survey of Refrigerating Machinery and Appliances of the S.S. 'Calumet' No ~~22861~~ ⁷³²⁸⁶ in the Register Book, Master, will be completed on the 2nd July and the vessel will be recommended for notation LLOYD'S RMC 7.34 for temperature of 25°F.

As the vessel sails from here for S. Africa via Montreal on Wednesday next, the 4th July, the Owners desire that the certificates may be prepared and forwarded to this office as soon as possible.

I am, Dear Sir,

Yours faithfully,

S. Townend.

P.S.: 2 units; 2 compressors; CO₂, Liverpool Refrig. Co.; 1934; ^{air} cork, 2,880,000 cub. ft. per hour; 50 tons ice melting; 2 chambers; 55490 cub. ft. capacity.

The Secretary,

Liverpool.

It will be noted that the no 3 twin Dr. chamber was classed in 1923, & the class then withdrawn.
