It is stated that the ship will be drydocked at Liverpool and put through the remainder of the Annual Passenger Certificate Survey between the end of August and beginning of October. The Owners will find it difficult to carry out the Special Survey in April next and request deferment until September, 1960 (5 months from due date). It is proposed to carry out the Screwshaft Survey and a General Examination for postponement of the Special Survey when the vessel is drydocked at Liverpool.
