# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

Ref: C.SEC.S.  
816/20.

13th February, 1920.

Dear Sir,

E.

With reference to your letter of the 4th instant respecting the machinery of H.M. Tug "ST. HILARY" built by the Lytham Shipbuilding Co., I beg to acquaint you that I am now in receipt of a letter from the Society's Surveyor under whose inspection the machinery was constructed.

The Surveyor states that the reversing engine of that vessel was supplied in a finished state to the engine builders by Messrs. McTaggart, Scott & Co., and worked satisfactorily on the trials. No defects were observed or complaints made with respect to the engine room auxiliary valves.

I am, Sir,

Your obedient Servant,

The Secretary,  
ADMIRALTY,  
Whitehall,  
S.W.1.

Secretary.
