# LLOYD'S REGISTER OF SHIPPING

UNITED WITH THE BRITISH CORPORATION REGISTER

Port GLASGOW.

22nd May, 1951.

*hir*

This is to Certify that

A.J. BROWN.

the undersigned Surveyor to this Society did at the request of Messrs. Babcock & Wilcox Ltd., attend their works at Renfrew, for the purpose of examining and testing two Water Wall Headers 8" square x 1" thick x 16'-7.9/16" overall length, manufactured by them under Contract No. 10/513 and intended for two boilers to be built by Messrs. Cammell Laird & Co. Ltd., for their Yard No. 1208.

The headers have been manufactured to approved plans under the supervision of the Society's Surveyors, and were found to be sound and free from defects. Mechanical tests of the material were witnessed by the Society's Surveyor at the works of The Chesterfield Tube Co. Ltd., where the headers were solid-drawn.

On completion of machining, the headers were examined, gauged and tested by hydraulic pressure to 795 pounds per square inch and found satisfactory.

For purposes of identification, each header was stamped A.J.B. adjacent to the Contract Number.

FEE: £ 2: 10: 0:

*A.J.B.*

Surveyor to Lloyd's Register.

Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly to be understood that neither the Society nor any Member of any of its Committees is under any circumstances be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of es or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
