Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

RES.

24th February, 1921.

I duly received your freeboard report No.1883 on the "SCYTHIA", Messrs.Vickers' vessel No.493, and enclose the usual printed letters of assignment.

In this case I have to point out that the centre of disc assigned to correspond to the maximum loadline of moulded, approved by the Board of Trade for passenger and an additional line should be marked at 1'-5" below the top of the disc, to correspond to the alternative moulded draught, as indicated on the sketch sent.

The marking of this additional line should be on the verification of marking form, and the freeboard certificates, when issued, will be endorsed as required by the Board of Trade.

I am, Dear Sirs,

Yours faithfully,

Secretary.

Yours,

-IN-FURNE SS.
