"TRESUS" THEODOXUS" TRIBULUS" THALAMUS"  
"THALLEPUS"  
-----

In a letter dated the 25th November, 1947 the Anglo-Saxon Petroleum Company Ltd. asked to be informed of the quantity of oil found on board their T2 type Tankers. This statement was only furnished to them on the 4th December, 1947, but did not include the above vessels on which the reports are awaited. These outstanding cases should therefore be the subject of a further letter to the Owners in regard to the equipment when reports are to hand.

Two additional cases of the "COUNCIL CREST" and the "ST MATANZAS" require similar attention in due course. These vessels are due in the United Kingdom by the middle of December and will presumably be submitted for Classification Surveys at that time.

*R.g.*

4th December, 1947.
