Yard No.

Engineers: Messrs.

Engine No.

S.S. "HALLADALE"

Commission of Hold for carrying sand in bulk.

It is submitted ~~that~~ the ~~plan of~~ Newcastle Surveyors
be informed that the plan of ~~merit~~ approval
~~for~~ *pumping arrangement for the above vessel*
~~provided~~ *has been further considered in*
conjunction with the additional information
contained in their letter of the 24th instant.

It is noted that the watertight floors at frames
N^{os} 33 & 34 extend only to the side keelsons, and that
the sand tank bulkheads do not extend to the
bottom of the vessel. In the circumstances it is
considered that the Firm's proposal to dispense with
the additional bilge suction and sounding pipe
previously recommended might be accepted. The plan
has now been amended accordingly.

Return plan.

~~Retain copy.~~
