

PUMPING ARRANGEMENT Endorsement.

005377-005386-0164

Shipbuilders: Messrs. *S. S. Halladale*

Yard No.

Engineers: Messrs.

Engine No.

Owners: Messrs.

*Conversion of hold for  
carrying sand in bulk*

It is submitted that the plan of

Pumping Arrangement

merits approval, provided the arrangements be as

shown and amended on the plan, and the remaining

~~requirements of Sections 20 and 34 of the Rules (19 -- )~~

~~be complied with so far as they are applicable.~~

*It should be pointed out that since  
there is only one bilge suction provided  
between frames Nos 34 & 65 it will be  
necessary for an additional suction  
to be fitted and it is suggested that  
one of the steam ejectors be connected  
to this suction as indicated in red on the plan.*

Return plan.
