

T.2 Tanker - "MESA VERDE"

Owned by the British Tanker Co. Ltd.

Mr. Humphreys, the Owners' Superintendent, has telephoned stating that this vessel will be submitted to full survey for classification of hull and machinery at Galveston, U.S.A. where she will arrive about the 22nd, May. At the same time, the shell and decks will be strapped and the additional reinforcements to bulkheads and bulkhead webs, bilge keel etc., fitted as indicated on the plans and specification prepared in this Office for this type of ship.

As the Owners will be unable to send one of their technical staff to Galveston to overlook this survey, Mr. Humphreys requests that the Society's Surveyors might be asked to give special attention to the case in the Owners' interests, so that the full survey and repairs may be satisfactorily and expeditiously completed.

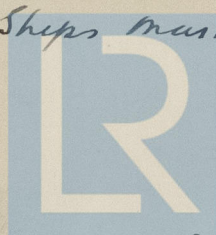

Copies of the above-mentioned plans and specification were forwarded to Mr. Bennett on the 7th February for the guidance of Surveyors at American Ports.

It is submitted Mr. Bennett, *Principal Surveyor U.S.A.* be advised as above and requested to arrange for this case to have the attention desired by the Owners.

29th April, 1948.

Mr. Humphreys has requested a copy of the letter sent to Mr Bennett for information of the Ships Master & Chief Engineer.
