

S.S. "ASIATIC".

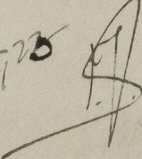

This vessel, which was built by the Burntisland Shipbuilding Co., was launched on the 1st September, 1921, and is now reported by the Leith Surveyors for First Entry.

In December last Messrs. W.H. Cockerline & Co., requested that she be entered as completed in 1923, and the Surveyors were asked to state to what extent the vessel was incomplete.

In reply they forward the First Entry Report stating that the vessel has now been placed in dry dock, bottom and rudder cleaned, examined and coated.

In accordance with the Rules the date of build would be recorded as March 1922, and there is no indication from the Surveyors of any reason to depart from the normal date of build.

The case is submitted for the consideration of the Committee.
