8th October, 1963

QUESTION

ANSWER

With reference to the entry in the S.R.L. No.207, I shall be glad to learn if you are in a position to let me know what arrangements are proposed to be made regarding the machinery condition of class which expires at the end of this month.

The Main Boiler Survey becomes due at the end of this month, and the Owners' intentions regarding this inspection will also be appreciated in due course.

Date:— 18th October, 1963.

We have been informed by the Owners that this vessel has now been laid-up pending a decision as to her future.

They have assured us, however, that should she again be put in service, all outstanding conditions of class and surveys will be dealt with.
