BIDO"	Screwshaft Survey due 2.56	2.53	6.55

The Djakarta Surveyors state that as a result of unsatisfactory promises concerning the carrying out of overdue surveys they have handed to the responsible official in charge of the shipping department a copy of the attached letter. They add that the officials would appear unable to cope with the running of the organisation and recommend that when the stated surveys are not duly reported at their due dates the respective vessels' classes should be expunged.
