REPORT Djakarta

No. 4598

The remarks of the Chief Engineer Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/52.)

of Survey

~~REPAIRS TO ENGINES AND BOILERS DUE TO DAMAGE THROUGH~~

The Surveyor reports having carried out a Satisfactory General Examination with a view of postponing the Special Survey until June 1956. The Survey now held complies with the requirements of Circular 1959. The Surveyor should however be informed that the question of postponement of any Special Survey is a matter entirely for the Committee and in future cases the permission of the Committee should be sought before any action is taken.
