

## WOKINGHAM COPY.

"SKANDINAVIA"

This vessel was built in Germany after the outbreak of War, but in the absence of a First Entry Report a draft report was submitted in this office on 25th February 1941.

25th February, 1941.

Dear Sir,

- S. I think it well to inform you that the remarks contained in Galveston Report No.3981 and Mr. Rennie's letter of the 16th December last regarding the motorship "SKANDINAVIA" have been reported to the Committee at their meeting today.

It is noted the vessel is engaged in service between Port Arthur, Texas, and South American ports, and to make the necessary internal examination and verification of scantlings it would appear the Survey will have to be deferred until the next drydocking, probably about April next, and the draft First Entry Reports have been retained to receive attention at that time. In the circumstances, and pending the verification of the scantlings etc for assignment of the full class, it has been thought well to assign a notation of "Examined 10,40" as an indication of the present position regarding the Survey.

I am, Dear Sir,  
Yours faithfully,

Clerk to the  
Classification Committee.

Wm. Bennett Esq.,  
NEW YORK.
