

It is submitted that as in previous similar cases

"SKANDINAVIA"

This vessel has been built in Germany, but no first entry report has been received.

A draft report has been prepared as far as possible from the approved plans, the machinery being similar to that in the M.V. "Nueva Granada" except that it is not known whether this applies to the electric equipment.

It is submitted the Owners be requested to arrange a suitable opportunity for a general examination to be made and the above particulars to be verified.
