Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

Repairs must be reported in the terms of the Rules. The nature and extent of Examinations and Repairs (if any) must be stated in detail, the parts examined and their condition being fully indicated. For Annual, Special or other Condition Surveys the Summary of Examination and Condition on the back of the Report is to be carefully completed and signed if necessary in the body of the Report. Outstanding items to complete the Survey should be summarised at the end of the Report. The reasons for Repairs must be stated. Repairs due to Damage (the alleged cause of which must be stated) should be separated from Repairs due to other causes, and, besides being detailed in the body of the Report, should be summarised in the form below. When, at a Special Survey, the Shell and Deck plating is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain plates are replaced or retested the necessary particulars are to be given on Report 8(Eq) and this is to be attached to this Report.

renewed								
moved and Fair'd or Repaired								
red or Repaired in place								

Survey also been held on machinery of the Ship?

Yes

Is Classification Certificate required? If so, to be sent to

Is the Report sent now, or when will it be sent?

Now

Has Interim Certificate been issued?

Yes

GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:—"to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1,55"; or "to remain as Classed and to have record of drydocking 1,55, and the notation of S.S. . . . 1,55".

This ship so far as now seen, is in good condition and eligible, in my opinion, remain as classed with fresh record of D.S. 4,58, subject to all conditions as present attached to the vessel's class being dealt with as previously recommended.

J. Moar
Surveyor to Lloyd's Register of Shipping
