

FOR LONDON SURVEYORS

(Reference telephone conversation Mr.Mann-Mr.Betts
30th March, 1949).

s.s."SHILLONG" (*hwc. 105986*)

The First Entry Reports are attached together with an endorsement by the Engineer Surveyors regarding certain requirements to the pumping arrangements to be dealt with in London.

It may be added that reference to these requirements is made in full on the back of the First Entry Hull report.

It is requested that the reports should be returned to this Office as soon as possible in order that the Engineer Surveyors may continue to deal with the case pending receipt of the London Report.
