71, Fenchurch Street, E.C. 3.

1st April, 1930.

Dear Sir,

I am in receipt of your letter of the 26th ultimo relative to the steamer "ZURZEME" the contents of which have been noted, and I may say that in the circumstances the Committee will authorize you to complete the Special Survey No.3 of this vessel in this instance.

For your information I think it well to inform you that to complete this inspection the bridge space, forecastle space and poop space require to be examined; the lining under the side ports removed; bunkers to be examined (except lifting of ceiling); decks, masts (wedges to remove), spars and rigging to be examined; hatchways with hatches in position to be examined and the freeboard verified.

I am, Dear Sir,

Yours faithfully,

A. Ozols, Esq.,

RIGA.

pro Secretary.
