1/HEE.....

Dear Sir,

M.V. "RANSDORP"

X
With reference to the Classification Survey on the above vessel, recently carried out at Port Adelaide, I now enclose herewith, First Entry Report, Freeboard Report, Report 8, and copies of approved plans of Midship Section (2), Profile and Decks. A copy of the plan of Rudder and Sternframe is also - returned 22/2/51 enclosed herewith, for information. As this is the only existing copy of the plan, I shall be obliged if you will be good enough to return same, as soon as possible.

The equipment on board the vessel is less than the Society's requirements but the Owners are arranging to supply a third bower anchor and 1-90 fathom length of 2½" wire rope. This will enable the figure "1" to be assigned.

Yours faithfully,

W. C. Buller

The Secretary,
LONDON
