Dear Sir,

In reply to your enquiry in the classing letter of the 27th. instant regarding the steamer "APPLE BRANCH" Hull Report No. 31646, I beg to state that the breaking test of the steel stream wire and twoline is 39 tons and warps $12\frac{1}{2}$ tons.

As a second means of steering, relieving tackles have been fitted and a record of "con" should be made in this case.

I am, Dear Sir,

Yours faithfully,

Arthur Scullard.

The Secretary,

LONDON.E.C.3.
