

M.S. "CABO SAN AGUSTIN"

An account for the fees due for survey of this vessel during construction was rendered to the Builders on the 29th September the amount being.....£886 ³¹ _^

Owing to the delay in obtaining a sterling remittance for the above, the Bilbao Surveyors have suggested that payment might be made in currency, and they ask for instructions as to what rate of exchange should be accepted. They add, however, that the Builders expect to benefit by the recent rise in value of the pesetas.
