

## LLOYD'S REGISTER OF SHIPPING

SAN NICHOLAS,

ARUBA, N. W. I.

M.V. "CARIPITENO"

4th June, 1942

I shall be glad to receive a reply to the enquiry contained in my memorandum of the 26th November last.

I take this opportunity to point out that the Special Survey No. 2 will become due at the end of next month.

The following reply was made to this enquiry by Mr. R. Little on 15th January, 1942:-

"This vessel is now owned by the United States Army and no information on the Screwshaft renewal is obtainable."

I now have to add that this vessel's name has been changed to "Hugh J. Gallagher" and is operating as a U.S. Army Transport.

The vessel was recently on dock at this port, but no action was taken in view of the above, although it was noted that a new screwshaft was fitted, the marks on the new shaft being LLOYDS 6584 O.N. 14th November, 1941.

*Robert W. Stonehouse*  
Surveyor.
