Dear Sir:-

With reference to the duplicate Freeboard certificates for the steamer "Cheribon Maru", which were forwarded with your letter May 10th, the builders have drawn my attention to the port of registry which is given as Kobe instead of YESUMI.

The Hull and Machinery Classification Certificates are in order and they have requested that I make the necessary correction on the Freeboard certificates, which I have done, placing my initials against same.

I am, Dear Sir,

Yours faithfully,

*W. J. Cooper*
