LLOYD'S REGISTER OF SHIPPING.

17, BATTERY PLACE,
NEW YORK 4, N.Y.

March 23, 1944.

R. T. Lemon, Esq.,
War Shipping Administration,
45, Broadway,
New York, N.Y.

Dear Sir:

I am advised by the Standard Oil Co. of New Jersey that the undernoted vessels are being sold to the U.S. Maritime Commission as of March 14, 1944, and will be delivered to the Commission at a U.S. Port of Discharge as soon as practicable thereafter:

GLENPOOL	F. Q. BARSTOW
S. E. HUNT	C. A. CANFIELD (Lloyd's Class Only)
WM. G. WARDEN	E. T. BEDFORD

These vessels carry dual class, i.e. Lloyd's Register and American Bureau. Inasmuch as the Standard Oil Co. of N.J. found it advantageous to maintain dual classification on these vessels over a long period of years, we trust that the Commission may see fit to follow suit; or, alternatively, apportion some of the vessels to Lloyd's Register and some to the American Bureau.

Awaiting your advice,

Yours very truly,

(SGD)

Principal Surveyor.
