Vancouver, B. C.

HULLS 18 & 19.

Gentlemen:-

With regard to the above vessels at present under construction, which are sister ships to our Hull No. 15, we propose to omit two W. T. Bulkheads, one in the forward hold and one in the after hold as was done in that vessel, this being necessary in order to accommodate the cargo which it is intended to carry. AS Owners of these vessels we shall be glad to have approval of this arrangement.

Yours very truly,

J. COUGHLAN & SONS LTD.,
