The Surveyors,

Vancouver, B. C.

Dear Sirs:-

As we do not think the fitting of a  
Downton Pump assential in the case of one of our Steamers,  
we have, after thaking up the matter with Mr. Edwards,  
Lloyd's Surveyor at our Shipyard, decided to omit the fitting  
of same on Hull No. 18, S. S. "CITY OF VANCOUVER", recently  
constructed here. We hope this arrangement is satisfactory.

Yours very truly,

J. COUGHLIN & SONS LTD.,

SGD. JOHN MAITLAND,

Chief Engineer.
