of Classing Letter to AMSTERDAM

dated 17th April, 1936.

13657. "ANGLO No.14, 15, 16 & 17". I shall be glad if you will forward the dates of the examination of the principal parts called for in the spaces provided on the report 4b in the cases of these barges and at the same time let me know whether the sea suction strainers have been fitted.

P.S. With regard to the barges "ANGLO No.14, 15, 16 & 17" referred to above, I have to acquaint you that the Engine Makers are pressing for the Certificates. I shall therefore be glad if you will endeavour to expedite the payment of the hull and fitting-on-board fees at your port, and cable this Office as soon as these have been paid. I shall also be glad if you will forward particulars of the extreme breadth over belting in the cases of these barges.
