Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

17th April, 1936.

Dear Sirs,

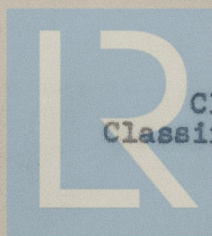

I am in receipt of your letter of yesterday's date enclosing one from Messrs. H. Widdop & Co., Ltd., requesting to be supplied with the machinery classification Certificates for the motor lighters "ANGLO 14", "ANGLO 15", "ANGLO 16" and "ANGLO 17", and in reply have to acquaint you that the reports thereon will be submitted to the Committee early next week for assignment of classification.

With a view to expediting the issue of the certificates the Amsterdam Surveyors have been requested to cable this Office immediately the hull and machinery installation fees charged by them have been paid, and as soon as advice thereon come to hand the machinery certificates will be forwarded to you for transmission to the Engine Makers in the usual way.

I shall be glad if you will kindly convey this information to Messrs. Widdop & Co., as soon as possible.

I am, Dear Sirs,
Yours faithfully,

The Surveyors,
MANCHESTER.

Clerk to the
Classification Committee.
