

# Lloyd's Register of Shipping,

High Close,

Wokingham, Berks,

Fbd.

To the Surveyor(s) at HONG KONG.

Vessel's Name,

"HIN SANG"

12th August, 1941.

QUESTION.

ANSWER.

With reference to your  
Fpt. C12(b) and C11(contd.), I  
have to inform you that it is  
concluded that the double bottom  
tanks within the midship half of  
the ship have adequate longitud-  
inal sub-division, and that  
efficient provision has been  
made for steering in the event  
of a breakdown in the main steering  
arrangements.

*H.E.U.*

Date:— 27th. November 1941.

All double bottom tanks except  
No.1 & 5 have adequate longitudinal  
subdivision.

This vessel has telemeter gear  
from bridge to hydraulic gear in  
poop also telemeter gear from poop  
deck and hand gear from poop deck.

*CRB*
