

S.S. "GASTEIN", built in 1910-lmo.

This vessel was originally classed 100A1 "Awning Deck with Freeboard" with this Society, but the class was withdrawn in November 1923 at Owners' request and three dots (...) inserted.

In these circumstances it is considered that the only survey which should be held on the ship should be a survey for reclassification, and it is submitted the Trieste Surveyors be informed by telegram accordingly.

They might also be informed that as the freeboards assigned to this vessel were expunged with the class, she has no valid freeboard assignment.
