ENCLOSURES

12th March, 1919.

Dear Sir,

I enclose herewith Glasgow Reports Nos. 38283 & 38528 with accompanying correspondence respecting the engines Nos. 494 & 495 made by Messrs. Wm. Beardmore & Co. Ltd.

There has been a misunderstanding as to the vessels in which these engines were intended to be fitted and as it now appears that the engines No. 495 have been fitted in the Strath Trawler "THOMAS HAGGERTY", and No. 494 in the "ISAAC DOBSON", the engine numbers on the reports have been altered accordingly.

After making the necessary alterations in your records I shall be glad if you will kindly forward the report No. 38528 to the Society's Surveyors at Aberdeen, and return the other report to this Office.

I am, Dear Sir,

Yours faithfully,

The Secretary,
GLASGOW.

Secretary.
