Ocean Chambers, Lowgate,

Hull 8th March 1919.

arnaghan,

reference to the engines which were  
the Strath Trawler "THOMAS HAGGERTY"  
495 as noted on the progress reports  
from the Engines. The crank shaft had  
D. 775 J.B. 5-9-18, as on the Glasgow  
also had a mark "E. 494", from which  
appear that the parts of the two sets  
494 & 495 have been somewhat mixed up.  
may be taken that the number 494 of  
fitted in the "ISAAC DOBSON" (Aber-  
correct, and that the number of those  
the "THOMAS HAGGERTY" is 495

Yours faithfully,

P. Fitzgerald.
