The Boiler Survey became due on this vessel in April last, but no reply has been received from the Owners - the U.S.S.R. - in regard to carrying out this inspection.

It is the usual practice for the Russian Authorities to withdraw their vessels from classification with this Society as they become due for survey, and in these circumstances the Classing Committee, who had this case before them on Tuesday, 3rd instant, decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
