

"Wulsty Castle."

is submitted that this report be returned to the
Island Surveyors, & it should be pointed out to
that the following particulars have been omitted

Dates of their visits in July, the diameters of
tunnel & screw shafts, whether the screw shaft
tilted with a continuous liner, the number of
lutions at full power of the turbines, motors &
peller, and their recommendation to the
committee.

They should be requested to ^{report} forward that portion
the survey of this vessel's machinery held by
in. on Apt 4^a & forward it to this office at an
by date.
