

S. Marakchi  
Malling 24287

WED. OCT. 18. 1911

HULL

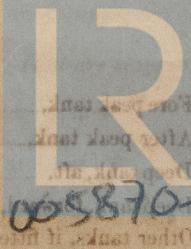

5th October 1911.

the Steel Main Boiler made by Messrs Amos & Smith, Ltd, Hull  
for the S.S."MARAKCHI", has been surveyed during construction  
by the undersigned. The material has been tested by the Surveyors  
to Lloyds Register; the scantlings are in accordance with the  
Society's Rules for a working pressure of 180 lbs per square inch,  
and the workmanship is good. The Boiler having been tested in our  
presence in the workshop, on the 30th August 1911 by hydraulic  
pressure to 360 lbs per square inch, and again on September 26,  
1911, to 270 lbs per square inch whilst in its place on board,  
showed no signs of weakness, and was found tight and sound in  
every respect.
