Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.

9th July, 1915.

Dear Sir,

S. I am in receipt of your letter of the 29th ultimo, with reference to the opening cut in the bulkhead of the steamer "RIO TEJO", and in reply I have to state that, in the circumstances, you should notify the Owner that if he desires this vessel's class retained in the Register Book an efficient watertight door must be fitted to the opening in the bulkhead on frame 64, and the work is required to be done to the satisfaction of the Society's Surveyors.

At the same time you should request the Owner to state definitely when and where this will be done.

I am, Dear Sir,

Yours faithfully,

Secretary

G. Dayne Esq.,

LISBON.
