3rd. November, 1910.

Sir,

H.

With reference to the classification of the steam Trawler "ALBERIA" (No. 430/R.B) I think it well to state for your information - as the vessel is registered at Lisbon - that in March last the Society's Surveyors at Grimsby reported that as the result of damage caused in launching the vessel, plate B6 on the starboard side, and one frame, were found to be set up. The class +100A1 (Steel) "Steam Trawler" was accordingly assigned subject to the plate and frame in question being faired at the next dry docking, and I shall therefore be glad if you will give the matter your attention when an opportunity presents itself.

I am, Sir,

Your obedient Servant,

G. Payne, Esq.,

L I S B O N.

Secretary
