Lloyd's Register of British & Foreign Shipping,

71, Fenchurch Street, E.C.

29th September, 1913.

Gentlemen,

E.

I am in receipt of Mr. Austin's letter of the 26th instant respecting the machinery of the steamer "TOKUSHIMA MARU", and note that the heating surface of the main boilers is 8550 square feet.

At the same time I have to inform you that it is concluded that the tensile strength of the shell is  $28\frac{1}{2}$  tons minimum, and not  $2\frac{1}{2}$  tons as given in Mr. Austin's letter, but I shall be glad if you will let me know if this is so.

I am, Gentlemen,

Your obedient Servant,

Assistant to the Secretary.

The Surveyors,

GREENOCK.
