

"AYDIN" "ADANA" and "MARAS"

Mr. Lyndsay of the Ship Repairs Division of the Ministry of War Transport stated last evening that the Ministry had decided not to proceed with the re-commissioning of the "AYDIN".

As regards the "ADANA" and "MARAS" however, they wished to have a temporary certificate for trading for 12 months, and asked that Mr. Bone, the Society's Surveyor at Alexandria, should attend on board with a view to making his minimum recommendations to this end.

Mr. Lyndsay stated, on behalf of the Ministry, that they had not yet been handed back to their original Owners and that until this was done the Surveyor should not associate himself in any way with their Agents.

I promised to cable instructions to Mr. Bone accordingly and the attached cablegram was afterwards agreed between us.

30. 5. 45.
