

R.F.A. "APPLELEAF"

Mr. Potts telephoned to say that a Representative of the Naval Stores Department had called in the London Office regarding this vessel. It was now desired that she should proceed to Iceland for use as a hulk and he wished to know what work the Sunderland Surveyors would insist upon to make this voyage.

The case was explained to Mr. Potts from the deferred reports and it was agreed Dr. Pickworth should be asked to comply with their wishes and detail a list of recommendations.

*S. Pickworth informed by phone & N.S.D. informed of action taken.*
