Surveyors,

ADDRESS

Hamburg.

Reference, if any :

Dated 9.2.53 Received 11.2.53 Answered ✓

Vessel's Name :

~~(X)~~
"TRANSVAAL", "KAMERUN", "NIGERIA".

With reference to your letter of the 2nd February, we forward herewith copies of the G.L. test certificates for the air receivers, indicating that these vessels have been hydraulically tested to 45 Kg/cm².

In view of the circumstances of this classification, and the fact that the air receivers are new and have been fully examined by the Society's Surveyors, we should be pleased to learn whether the requirement for a further hydraulic test, in our presence, may be waived.

In the event of this concession not being considered acceptable, it is recommended that the test be postponed until the next Special Survey, as the ships are now in service.
