DISCLOSED SECTION
No. 149

Boiler Survey due 11.23.

Early last month the Owners' Superintendent Captain informed the Lisbon Surveyor that the vessel would only make one more voyage before being handed back to the Transportes Maritimos do Estado, and that it was not the intention of the Owners to hold the Boiler Survey or make any further outlay upon her.

On the 17th ultimo the same Surveyor wrote that he had been informed by the charterers that the Boiler Survey would be carried out on the vessel's return to Lisbon at the end of May, and that the steamer would probably be drydocked if a dock were available as they had chartered her for a period of three months.

In the circumstances, the Lisbon Surveyor was requested by telegram to inform the Owners that the Boiler Survey must be held on her arrival at Lisbon or the class would be expunged.

The case received the further consideration of the Committee on Friday. 13th instant, and as the Lisbon Surveyor stated that the survey was not being held, it was decided to expunge the class with a red line (6.24), indicating non-compliance with the Rules.
